A typical audience for this book will be freshman and sophomore students in the mathematical sciences, in engineering, in physics, and in any field where

Business Math - DPHU

I dedicate this book to my two business math inspirations. First, to my son, Jon, who came up with the idea of writing a book for business professionals who needed a refresher — specifically for his real estate workforce. And second, to my husband, Ted, who is the financial guru of the family and has

business situations with forecasting, quality management, and more. Our approach is to focus on understanding statistics and how to use it to support business decisions. The math comes in when it is needed. In fact, most of the math in statistics is done by computers now, anyway. When the ideas are clear, the math will follow fairly easily.
