(2nd generation) is designed to allow you and anyone at your home or business to easily arm and disarm your system without a smartphone. The rechargeable battery allows you to move it around your home easily, and the power should last a few months before it needs to be recharged (depending on usage and power save settings).

First, does anyone know when the 2nd Gen alarm is released in the UK? Also, same about the accessories such as the panic button and extra siren. I see that the ring US store is selling off 1st Gen keypads for \$37.50 (around £29.39). Even with our higher taxes the UK one is way more expensive at ...

Smoke alarms have smoke chambers that cover and protect the smoke sensors to a certain degree.

However, many are still prone to letting in small bugs or fibers that can accidentally trip the smoke sensor and create false alarms.
