German Heavy Cruisers Of The

The German navies of the 1920s through 1945—the Reichsmarine and later Kriegsmarine—built or planned a series of heavy cruisers starting in the late 1920s, initially classified as Panzerschiffe (armored ships). Four different designs—the Deutschland, D, P, and Admiral Hipper classes, comprising twenty-two ships in total—were prepared in the period, though only the three Deutschland ...

List of heavy cruisers of Germany - Wikipedia

Starting in the 1880s, the German Kaiserliche Marine (Imperial Navy) began building a series of cruisers.The first designs—protected and unprotected—were ordered to replace aging sail and steam-powered frigates and corvettes that were of minimal combat value. After several iterations of each type, these cruisers were developed into armored and light cruisers, respectively, over the ...

Deutschland was the lead ship of her class of heavy cruisers (often termed a pocket battleship) which served with the Kriegsmarine of Nazi Germany during World War II.Ordered by the Weimar government for the Reichsmarine, she was laid down at the Deutsche Werke shipyard in Kiel in February 1929 and completed by April 1933. Originally classified as an armored ship (Panzerschiff) by the ...

German cruiser Deutschland - Wikipedia

The German cruisers in use during the First World War fall into three broad categories – heavy cruisers, battlecruisers and light cruisers. The heavy cruisers consisted of older protected and armoured cruisers. Up to the Scharnhorst class they were not especially well designed ships, which carried twice the number of the heaviest 8.3in guns ...

German Cruiser Classes of the First World War

So how good were the German heavy cruisers? Taking Prinz Eugen as the example, since she was the last and best of the type, I would have to say she was very good. Her gunnery and fire control were excellent (at least by pre-radar standards). Her torpedo protection was good by cruiser standards.

Heavy Cruisers of WWII (Part 2) - CHUCKHAWKS.COM

The heavy cruiser was a type of cruiser, a naval warship designed for long range and high speed, armed generally with naval guns of roughly 203 mm (8 inches) in caliber, whose design parameters were dictated by the Washington Naval Treaty of 1922 and the London Naval Treaty of 1930. The heavy cruiser is part of a lineage of ship design from 1915 through the early 1950s, although the term ...

Heavy cruiser - Wikipedia

Seydlitz was a heavy cruiser of the German Kriegsmarine, fourth in the Admiral Hipper class, but was never completed.The ship was laid down in December 1936 and launched in January 1939, but the outbreak of World War II slowed her completion and work was finally stopped in the summer of 1940 when she was approximately 95 percent. The unfinished ship remained inactive until March 1942, when the ...
