Harley Evo Engine Noise

How I solved my noisy valve train on my '92 Fatboy 1340 EVO engine. I have been chasing this problem for several months, and it was getting so my bike wasn't fun to ride anymore, as the engine noise seemed louder than my exhaust, especially when I have the windshield on, it tends to amplify all the sounds coming from the engine.

Harley Valve Train Noise - Capital Hosting

My friend has a 98 electra glide with a fuel injected evo engine, He says he can hear a clattering noise after it warms up. The Harley tech here says that there is nothing to worry about,that there is always alot of noise in the heads of an evo,Would everyone agree with this?

Evo Engine Noise | Bike Talk motorcycle forum

Some Harley engines (with hydraulic lifters) have valve noise, and it drives some guys crazy trying to find the source of the

Harley Davidson Noise Culprit

The Evolution engine (popularly known as Evo) is an air-cooled, 45-degree, V-twin engine manufactured from 1984 by Harley-Davidson for the company's motorcycles. It was made in the 1,340 cc (82 cu in) displacement for Harley-Davidson Big V-twins bikes, replacing the Shovelhead engine until 2000 when the last EVO was placed in a production factory custom FXR4 (FXR2 and FXR3 were the first CVOs).

Harley-Davidson Evolution engine - Wikipedia

Can any of the old harley guys give me some input here. One guy told me this type of noise is normal for this era machine. It does it worse when cold like here. Sometimes it completely goes away ...

Harley engine noise.

The cam chain system is a vital component in the functioning of a Harley's Twin-Cam engine. Zeroing in on this specific cam component can make you as a buyer aware of its potentially faulty design. The cam chain system of a Harley is designed with plastic shoes that ride on the cam system. The plastic shoes will eventually wear out due to ...
