Cosmetic Product Safety Report - Cosmetic Safety Assessment

Safety of cosmetics is a key issue in the EU. Cosmetics in the EU are regulated by Regulation (EC) N° 1223/2009, requiring that cosmetic products are shown to be safe before reaching the

Access Free Safety

market. This must be done through safety assessment and for that purpose a unique dossier (Product Information File, PIF) need to be composed by a qualified safety assessor for each individual cosmetic coming on the European market.

Safety Assessment of Cosmetics in the EU • Training Course

The safety of the

The Cosmetic Products Regulation (CPR) states clearly that the safety of a cosmetic product may be assessed based on a knowledge of its ingredients and their properties. To that end, there is a requirement to carry out and compile a safety report and conduct a safety assessment for each cosmetic product before it is placed on the market.
